

Data Sheet – Motor Sport Zero 360 Gas Handhelds

Lifeline offers a full range of quality hand held Zero 360 Gas extinguishers to suit all budgets and motorsport applications. The latest generation of Lifeline hand held extinguisher uses the highly efficient gaseous ZERO 360 extinguishant. Designed specifically for the rigours of motorsport and able to operate in any orientation.

Lifeline hand held extinguishers are supplied complete with a bracket and quick release strap for easy access (except for belt mount units). All units have a 2 year servicing cycle.

- **1.0kg** – Ideal for your road car, trailer, service vehicle, caravan or workshop. This extinguisher size is not approved for motorsport use in car.
- **2.0kg & 3.0kg** – MSA / FIA compliant, and used by World Rally Championship teams..

The Lifeline range of handheld units is manufactured to the same exacting standards as in our World Championship Teams chosen systems.

Ideal for pit personnel these handy belt mounted extinguishers will allow you to fight small fires quickly and safely using our 1.0kg Zero 360 Gas for A, B & C Fires (solids, liquids & electrical).
