Data Sheet – Tuning ABC Handheld Extinguishers

Lifeline is pleased to introduce its new range of quality Tuning Hand Held extinguishers, available in a wide variety of attractive colours and finishes.

Using the same legendary Lifeline quality as in our range of world championship winning on board fire systems these extinguishers have been specially designed for use in Road Cars, Caravans, Boats or even at home, in the office and workshop.

Now available in Red, Blue, Gold, Polished and even Pink! These compact units are filled with highly efficient 1.0kg dry powder and come with a mounting bracket and quick release strap for easy access. Using ABC dry powder they are able to tackle most small fires involving liquids, electrics, paper and wood.

Lifeline can supply these units in other colours and finishes to suit individual customer requirements and also with customer logo (subject to minimum quantity order).
